DETAILED ACTION

1. Claims 1-3, 5-22, 24, 26-31, 33, 35-42 and 48-53 are pending in this application. Claims 48-53 are withdrawn from prosecution.

Response to Amendment

2. Applicant's amendment filed 1/13/2006 in response to the previous Office Action (10/26/2005) is acknowledged. Rejections of claims 1-16 under 35 U.S.C. § 112, second paragraph (item 6) and the obviousness rejection (item 5) have been obviated. Upon further review of the case, it is deemed necessary to raise new issues that need further rejection.

Double Patenting

3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir.

1985); In re Van Ornum, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); In re Vogel, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and In re Thorington, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

4. Claims 1-3, 5-22, 24, 26-31, 33, 35-39 and 41-42 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-12, 36-37 and 41-45 of U.S. Patent No. 6,759,411. Although the conflicting claims are not identical, they are not patentably distinct from each other because there is significant overlap between the subject matter of the instant claims 1-3, 5-22, 24, 26-31, 33, 35-39 and 41-42 and the subject matter of claims1-12, 36-37 and 41-45 of said U.S. Patent 6,759,411.

Art Unit: 1624

Claim Objections

5. Claim 22 is objected to because of the following informalities: there is no period at the end of claim 22. Appropriate correction is required.

Claim Rejections - 35 USC § 112

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-3, 5-22, 24, 26-31, 33, 35-39 and 41-42 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 1 and claims dependent thereon are rejected because the proviso "when M is absent, J is selected from CH₂, CHR⁵, CHR¹³ and CR⁵R¹³" is not clear. Note that J is selected from CH₂, CHR⁵, CHR⁶ and CR⁵R⁶ and not CHR¹³ and CR⁵R¹³. Definitions of R⁶ is not the same as the definition of variable R¹³ e.g. R⁶ = CN is missing from the definition of variable R¹³.
